

With our customers in mind, U.S. Dynamics Corporation (USD) has recently updated its website with some new features. These features will help our customers navigate the site, contact us and stay up to date on the latest USD news and events.

- ◇ **What's New:** See the latest USD news and events at What's New scrolling news window. Here you will find press releases, USD news and highlights, contracts won, success stories, the latest in our product and capabilities offerings and learn about upcoming trade shows and where you can find USD exhibiting.
- ◇ **Contact Information:** The Contact Information section is where you can find more than just a listing of our address and contact phone numbers. An information request form has been added along with e-mail addresses if you wish to reach customer service or sales via e-mail. And the directions tab now includes a MapQuest link for your convenience. Feel free to contact us with any questions.
- ◇ **Information Request Form:** This new feature allows the customer to contact USD and select certain topics of interest so that the inquiry can be directed to one of our sales engineers that specializes in that area. Literature can also be requested. A specific request can be typed in the textbox in the event that what you were looking for could not be found.
- ◇ **Directions:** To help with your next visit to U.S. Dynamics, there is now a MapQuest link to help you find our location. You will find a map of USD's location along with interactive driving instructions. Through this link you can find local hotel information, restaurants and attractions. We invite you to visit us and take a tour of our facility and learn about our wide range of capabilities. USD is only minutes from airport and rail service as well as nearby entertainment, sports and recreation activities.
